SYED ALI MOOSA

SENIOR CMS & E-COMMERCE DEVELOPER

zaidialimoosa34@gmail.com | +92 310 3492234 | Karachi, Pakistan | LinkedIn: alimoosazaidi

PROFESSIONAL SUMMARY

Hands-on CMS and e-commerce developer with experience building and customizing WordPress websites and Shopify stores. Focuses on theme updates, Liquid scripting, responsive front-end work, and website hosting and DNS. Turns client designs into working websites, troubleshoots plugin and script issues, and supports website migrations and live-site maintenance. Combines practical CMS knowledge with HTML, CSS, JavaScript, and foundational PHP.

CORE SKILLS

CMS Platforms: WordPress, Shopify, Wix

Front-End & Scripting: HTML5, CSS3, JavaScript (ES6+), Bootstrap, Liquid, PHP, responsive web design, cross-browser testing

WordPress: Theme and child theme customization, WooCommerce, Elementor, ACF, plugin configuration and debugging, page builders, reusable page layouts, troubleshooting, updates and maintenance

Shopify: Liquid templates, theme sections, app integrations, checkout and product page setup, storefront layout, product and collection setup, navigation, content updates

PHP & Integrations: PHP, custom PHP edits, form integrations, third-party API integration, payment gateway integration support

Hosting & Tools: cPanel, Namecheap, GoDaddy, DNS/nameservers, SSL, migrations, live-server deployment, backups, file/database management, hosting troubleshooting

E-commerce & Quality: Store setup and maintenance, product page updates, checkout flow checks, basic on-page SEO, speed and usability checks, security and compatibility updates

WORK EXPERIENCE

CMS & E-Commerce Developer | HBOX Digital

Karachi, Pakistan | 2025 - Present

- Build and maintain WordPress websites and Shopify stores to meet client requirements.
- Create Shopify sections and templates with Liquid, HTML, and CSS for tailored storefront layouts.
- Communicate directly with long-term clients over chat, understand their requests, and deliver the work.
- Customize WordPress themes, create reusable page components, and add PHP functions when needed.
- Troubleshoot layout issues, plugin conflicts, third-party API problems, and form delivery errors.
- Handle hosting tasks, including database backups, cPanel settings, DNS and domain records, and SSL certificates.
- Improve mobile layouts and check website behavior across browsers and screen sizes.
- Coordinate with design, content, and project teams to clarify requirements and deliver client-ready websites.

WordPress Developer | Techixpert

Karachi, Pakistan | 2023 - 2025

- Developed responsive business and e-commerce websites using WordPress, HTML, CSS, and JavaScript.
- Maintained client sites by fixing layout issues, updating themes and plugins, and resolving PHP or script conflicts.
- Set up WooCommerce stores, including payment gateways, shipping rules, tax settings, and product catalogs.
- Migrated websites from staging to production and checked database integrity after migration.
- Customized themes, templates, menus, widgets, and plugins to match the project scope and stay easy to maintain.
- Maintained site content, images, links, and page structure, and checked updates on common screen sizes.
- Helped with launches and live-site maintenance, including hosting-panel tasks, domain settings, and backups.
- Worked with design and QA teams to apply feedback and deliver project milestones on schedule.
